

Alchemy: a story of perfect murder: - an historical psychological suspense thriller

The Sequel - Alchemy: turning Silver to Gold - Out 14th December 2015. How far would YOU go to bring back a lost love? Alchemy is a chilling psychological tale of mystery, murder and suspense and reveals an extraordinary decade in the life of a talented, sweet young and innocent genius, as he transforms into a monster. The author, well used to murder and the macabre, was a criminal trial lead detective in the British police. In Victorian London, England, close to the end of the 19th century, a young artist unravels what he believes to be the formula for immortality and raising the dead, prescribed in an ancient tome: Alchemy Just when he cracks the secret code for the final components of his elixir, his mistress and inspiration, dies. His life is devastated, his mind fragile, destroyed by drugs. He knows he has the power to revive her. But obtaining the last ingredients means resorting to murder, taking innocent lives. He just has to decide whose. His only surviving model, our narrator, infatuated with this painter of her portrait, attends the trial of the century, where she finally learns someone got away with murder. Based on a true story? Why not decide for yourself? What readers are saying about: Alchemy: a story of perfect murder Wow! An absolutely amazing book. Spectacular. A real find. If I could give it ten stars I would. One of the best books I have read and I read a lot. I am grateful to the author for writing such a gripping, wonderful, completely absorbing and engrossing book. A lot of research has gone into this book and yet it is not clunky or feels laboured, the story flows effortlessly and takes us on a riveting journey. The pacing is excellent, the setting comes alive with the beautiful descriptions. Chris James is a master storyteller who effortlessly transports us into Victorian times, the smells, the crowds, the misery and the glory, via the evocative and dramatic prose. Sorcery,

Magic, Murder, Science, Art, even a code, a tale which defies pigeonholing into genres and which I think will appeal to the fussiest of readers. Really bow down to the authors wonderful imagination. The characters have a way of burrowing themselves into the readers heads. Once I started reading I was ruined for the day. I could not put the book down. It haunted me when I was away from it. It haunts me still. An original, fantastic tale; a masterpiece, by an author to watch. I am recommending this to the world. I am SO glad there is a second instalment. Hopefully it is coming soon. - Renita DSilva. Acclaimed literary author: Monsoon Memories The Forgotten Daughter The Stolen Girl & A Sisters Promise Chris James is a talented writer and a master at his craft. He takes you on a chilling and riveting journey. Its powerful, suspenseful, unique, and twisted. Cant wait to see this as a feature film. - Terri Lynn Zinner, Movie Producer & Screenwriter <http://www.afilmwriter.com> a fascinating historical account of a disturbing murder trial, narrated by an amateur female sleuth, permeates through this mystery thriller as it unfolds a scary suspense murder mystery with an eloquent narrative - without the blood n guts The suspense is powerful!
