

The Dark Lords Handbook (Volume 1)

To become a Dark Lord is no easy thing. The simple ambition to hold dominion over the world and bend all to your will sounds straightforward but its not. There are armies to raise, fortresses to build, heroes to defeat, battles to be fought, hours of endless soliloquy in front of the mirror its a never ending job. Not to mention deciding what to wear. (After hours, days, even weeks of consideration, it will be black.) After many spectacular failures, Evil decided to lend more than inspiration to these would be tyrants. He wrote an easy to follow Dark Lords Handbook. And yet the next Dark Lord that came along screwed up like all the others. It had been hundreds of years, and the Handbook had been lost in the annals of time, along with all that was mythic and exciting in the world, until one day a randy dragon had a chance encounter. Nine months later a Dark Lord was born. It took a while but the orc who had been looking after the Handbook all this time delivered it to this new contender, Morden. To become a Dark Lord is no easy thing. Morden had better be a quick study.
