

The Dunwich Horror: Weird Tales

The Dunwich Horror. H.P. Lovecraft.

The Dunwich Horror is a short story by H. P. Lovecraft. Written in 1928, it was first published in the April 1929 issue of *Weird Tales*. It takes place in Dunwich, a fictional town in Massachusetts. It is considered one of the core stories of the Cthulhu Mythos. The Dunwich Horror is one of the few tales Lovecraft wrote wherein the heroes successfully defeat the antagonistic entity or monster of the story.

In the isolated, desolate and decrepit village of Dunwich, Wilbur Whateley is the hideous son of Lavinia Whateley, a deformed and unstable albino mother, and an unknown father (alluded to in passing by mad Old Whateley, as Yog-Sothoth), and strange events surround his birth and precocious development. Wilbur matures at an abnormal rate, reaching manhood within a decade. Locals shun him and his family, and animals fear and despise him (due to a smell he gives off). All the while, his sorcerer grandfather indoctrinates him into certain dark rituals and the study of witchcraft. Various locals grow suspicious after Old Whateley buys more and more cattle, yet the number of his herd never increases, and the cattle in his field become mysteriously afflicted with severe open wounds.

Wilbur wants to acquire an unabridged Latin version of the *Necronomicon* so that he may open the way for the return of the mysterious Old Ones, whose forerunner is the Outer God Yog-Sothoth. Thus, Wilbur and his grandfather have sequestered an unseen presence at their farmhouse; this being is connected somehow to Yog-Sothoth. Year by year, this unseen entity grows to monstrous proportions, requiring the two men to make frequent modifications to their residence. People begin to notice a trend of cattle mysteriously disappearing. Wilbur's grandfather dies. His mother disappears soon afterward. The colossal entity eventually occupies the whole

interior of the farmhouse. Wilbur ventures to Miskatonic University in Arkham to procure a copy of the Necronomicon. Miskatonic's library is one of only a handful in the world to stock an original. The Necronomicon has spells that Wilbur can use to summon the Old Ones, but his family's copy is damaged and lacks the page he needs to open the door. When the librarian, Dr. Henry Armitage, refuses to release the university's copy to him (and has, by sending warnings to other libraries, thwarted Wilbur's efforts to consult their copies), Wilbur breaks into the library at night to steal it. A guard dog, maddened by Wilbur's alien body odor, attacks Wilbur with unusual ferocity, killing him. When Dr. Armitage and two other professors arrive on the scene they see Wilbur's partially non-human corpse, before it melts completely to leave no evidence.
