

The Age of the Viking (The Sentinels Saga Book 1)

The age of the Viking draws to a close.....a new age begins. Riley had always dreamed of adventures, particularly the Old Norse legends his best friend and roommate Conor always told him about. He wanted nothing more than to get away from the orphanage, to escape to a world of magic and heroes. But when an ordinary field trip goes horribly wrong, Riley discovers that a world of magic and heroes exists right under his nose, and that Conor doesn't just know about it; he is at the center of it. Conor spirits Riley and their mutual friend Valerie off to Midpoint, the world of the Sentinels. It is there that Riley learns that the myths Conor had told him - Odin, Thor, the Nine Realms, and countless others - are all very real. But where there are heroes, so too are there villains. Morunya Durmacil, the fallen power from the earliest days of Creation, the reason all intelligent beings fear the dark, is stirring from his exile in the Void at long last. And it can be no coincidence that the Shard of Earth, the relic that keeps the Nine Realms in balance by simply existing, appears to have been stolen. Riley and a few unlikely new friends embark on a quest to find the stolen treasure. But the Enemy has not been idle: the world of Fjallfit, home of the last Vikings, is being threatened with destruction. And though Riley and the others are determined to both save the Vikings and recover the Shard, the odds are not in their favor. Riley must come to terms with who he truly is and become a sorcerer, or more than one civilization will be destroyed. And amidst prophetic guarantees of death and loss, there remains one question: Who stole the Shard to begin with?
