

The Fifth Beast

The aliens have arrived. They don't want to conquer the Earth, they just want to lease it. These visitors have brought their secret war to Earth, dramatically altering the lives of three unwitting humans: Benjamin, a lonely soul consumed by an irrational amorous obsession; Armin, a hippie ex-priest whose exotic new girlfriend is significantly scier than he's used to; and Sheila, a grieving grandmother whose efforts to understand the circumstances of her granddaughters bizarre death could expose the machinations of an otherworldly political conspiracy. This inevitable clash of cultures could result in nothing less than a redefinition of existence itself. Hilarious and horrifying, *The Fifth Beast* is a story about murder, intergalactic espionage, and strange dietary preferences.
