

## The Fire Mages Daughter

A girl fighting her destiny. A living god. A war with the Blood Clans. Seventeen-year-old Drina just wants to hide away with her books, but as the daughter of two powerful mages and heir to the ruler of Bennamore, her wishes are rarely considered. Summoned to the capital, she is plunged into a maelstrom of politics and power struggles. The only compensation is Arran, the handsome bodyguard she grows to love. In her new role as a diplomat, she visits Bennamores mysterious neighbours, the Blood Clans. There she discovers there are other, darker forms of magic in the world than the familiar spells of the mages. Driven onward by a living god, the Blood Clans magic drags both their countries to the brink of war. Surrounded by enemies, Drina must find a way to tame the power of a god before everything she loves is destroyed.
