Start your adventures with Malja in this action-packed, post-apocalyptic fantasy collection! In a parallel world destroyed by magic, one woman fights all odds to survive and find the answers behind her mysterious past. Stolen at birth, trained to be a killing machine, and then tossed away at ten, Malja crosses the ruins of her world seeking to right the wrongs around her. But in order to face unrelenting challenges - crazed magicians, guitar-playing assassins, mutated beasts - she must push through with a single-mindedness that may destroy all she holds dear. For the first time, you can read the entire series in this two-volume collection! incredible and impressive -- Fictitious Chronicle a great start to a series, and I cant wait to see where it goes next. -- Workaday Reads [Jaffe] has a stunning imagination to create so many odd beasties and devices and situations. -- Paulines Fantasy Review
