

## Dragon Age: The Masked Empire

Empress Celene of Orlais rose to the throne of the most powerful nation in Thedas through wisdom, wit, and ruthless manipulation. Now, the empire she has guided into an age of enlightenment is threatened from within by imminent war between the templars and the mages even as rebellion stirs among the downtrodden elves. To save Orlais, Celene must keep her hold on the throne by any means necessary. Fighting with the legendary skill of the Orlesian Chevaliers, Grand Duke Gaspard has won countless battles for the empire and the empress. But as the Circle fails and chaos looms, Gaspard begins to doubt that Celene's diplomatic approach to Orlais's problems will keep the empire safe. Perhaps it is time for a new leader, one who lives by the tenets of the Chevaliers Code, to make Orlais strong again. Briala has been Celene's handmaid since the two of them were children, subtly using her position to help improve the lives of elves across Orlais. She is Celene's confidante, spymaster, and lover, but when politics force the empress to choose between the rights of the elves and the Orlesian throne, Briala must decide where her true loyalties lie.
