

The Night Land

One of the most potent pieces of macabre imagination ever written -- H.P.Lovecraft. Lovecraft wasnt wrong: this is, perhaps, the greatest single work of fantastic fiction in the English language. The sun has died, as have the stars. Not a solitary light shines in the heavens. The days of light are nothing by a legend -- they are a story told to soothe children. The last millions of humans still live in their Last Redoubt -- but the end of their days is at hand.
