

## The Odd, The Furry, and The Speckled: The Rise of the Feet Varmints

When a little girl gets trapped within a terrible storm, the mouse size creatures of Willow Creek risk paw and tail to rescue her as they are bombarded by ravenous crows, hampered by a battalion of ants, besieged by angry bees, attacked by a gruesome mole, flooded by a raging sprinkler system, and still they have yet to travel a single block. Welcome to Willow Creek, home of the rarest pups on earth; they also happen to be the most self-absorbed, neurotic, ill-mannered, chatterboxes this side of the Mississippi. But happy they are, beloved by their masters, and spoiled rotten. But when Willow comes to town, a young varmint straight out of boot camp, they are immediately put off by her toe-the-line demeanor. As tempers escalate, tragedy strikes: Willow and her young master, Misty, get stranded in Redwood City amidst a dreadful storm. To bring them home again, the pint-size varmints soar off on a dazzling adventure that is chalk full of wonder and danger. But the question remains, can these oddball creatures hold it together long enough to save the day? It is a scary world out there after all, especially when youre the perfect size to be gobbled up.
