

The Prologue: The Secret Book of Moolstery: The Lay of Moel Eyris: The Saga of the Bears Son

Between the faraway past, and that time which lies near to us, there came to one of the Twilight Realms, a remote archipelago called Moel Eyris (Islands of the Maols), a vicious horde of invaders from the Faarlands filled with hatred, cruelty, and of wickedness. Though the islands were so threatened and uncertain, there yet remained strong, determined Islanders, or Eyrlanders, who knew the right and the truth and lived according to what they knew. And a boy whose fate would determine the fate of all. The Prologue to the story begins with a perilous journey, being made under the cloak of darkness, and the added protection of a thick, magical mistdragons breath. Brom and Hanne Powys are fleeing for their lives, for the life of their son, Caelean. And for the very life of the islands. The Lay of Moel Eyris chronicles the adventures of Cael Faolan through his twelve long years of study at Moolstery to become a maol---a mythographer. The lay comprises five books: The Secret Book of Moolstery; The Secret of the Mool Dykes; The Secret of Morags Tooer; The Secret of The Myvyrrian Map; and The Secret of the Dragon Eggs.
