

## Avadonya: Rescuing Pavra

On the planet of Avadonya, handsome yet brutal shapeshifters called the Beasts raid a small Bormian village, kidnapping young females. A young Beast named Romi wins the youngest captive Pavra in a challenge and takes her as his prize to save her from the hands of the other Beasts. As the years pass and Pavra transitions into womanhood, she and Romi fall in love and thus ensues their romance. Meanwhile, twins Gael and Gion head a group of young Bormians to rescue their younger sister Pavra and the other females taken on that fatal night two years ago. Will the eleven young Bormians be able to battle these shapeshifting Beasts, who outnumber them, and are just as deadly in their beastly incarnation? Not to mention the other dangers they must face along the way, even before they reach the Beasts lair. Action, adventure, romance, and surprises are in store for this band of brave heroes as they encounter fairies, ogres, gigantic creatures, more shapeshifters and other friends and foe on their courageous rescue mission. \* Mature theme \* Word count: approx. 77,350
