

The Scholar Adventurers

Richard Alticks classic portrayal of scholars on the prowl has delighted generations of readers. From the exposure of British rare book dealer Thomas Wise-the most famous authority of his day-as a master forger of first editions to the discovery of thousands of new James Boswell papers, Altick shows the scholar at work. Chaucer, Shakespeare, Wordsworth, Shelley, Keats, and many others surrender previously unrevealed secrets to these dogged researchers, whose ceaseless sleuthing has increased our knowledge and appreciation of both literature and the people who created it.
