

The Shard of Palrinah (The Remus Rothwyn Chronicles Series Book 2)

After saving High Peaks from a devastating war between Humankind and Fey, Remus and Elaina head to the grand city of Yondern to continue their adventures, yearning for excitement and the chance to do good. However, the long-brewing political conflict between the Steelwielders and Paragonites has erupted into open war, and try as they might, the travelers cannot escape the eye of suspicious factions. Once-friendly factions have turned wary, and they find themselves allying with those who they would least expect. An old friend, the bard Perfidian, confronts them with troubling information, hinting at a deeper objective to the brewing war, and possibly to an object of power that could wreak devastation upon the land in the hands of the power-hungry. The three friends must discover what the Steelwielder technocrats and Paragonite monks are truly seeking in a remote corner of Glenryth, in a deadly game of cat and mouse involving dark and sinister forces, both Human and otherwise. The Remus Rothwyn Chronicles is a dark, epic fantasy series with mythological elements and a nuanced world with complex perspectives.
