

The Shift

Nothing about me is normal but what exactly is normal? Just because I have two dads and no mom, my name is Elliot Marcus Smith even though I'm a girl, and I was born from a test tube Does that mean I'm abnormal? I say no. But the sudden abilities that have been appearing since I turned eighteen sure do. Wounds are healing quickly, my vision has changed, as has my strength, and my sensitivities to other people's emotions have become severely heightened. Add all that to the fact that I have been forgetting moments of my day as if they never happened, and it's obvious that something strange is happening to me. But what? What am I becoming?
