

The Spanish Story of the Armada, and Other Essays (Classic Reprint)

History of England from the fall of Wolsey to the defeat of the Spanish Armada, I had intended to pursue the story of the sixteenth century, and to write the lives of Charles the Fifth and Philip the Second. To them had fallen the task of confronting the storm which had broken over the rest of Europe. The opening of the Archives of Spain, Paris, and Vienna had for the first time made it possible to see the position in which they found themselves, to understand their characters and to weigh impartially their conduct in a situation so extraordinary. My own partial researches had already shown me that the prevailing opinions about these two princes required wide correction, and I thought that I could not better employ the remainder of my life than on an enquiry so profoundly interesting. To regard the Emperor, to regard Philip merely as reactionary bigots, is as unjust as it is un instructive. (Typographical errors above are due to OCR software and do not occur in the book.) About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology. Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
