

Hiding the Past (The Forensic Genealogist series Book 1)

This is the first book in the Morton Farrier genealogical crime mystery series. Peter Coldrick had no past; that was the conclusion drawn by years of personal and professional research. Then he employed the services of one Morton Farrier, Forensic Genealogist a stubborn, determined man who uses whatever means necessary to uncover the past. With the Coldrick Case, Morton faces his toughest and most dangerous assignment yet, where all of his investigative and genealogical skills are put to the test. However, others are also interested in the Coldrick family, people who will stop at nothing, including murder, to hide the past. As Morton begins to unearth his clients mysterious past, he is forced to confront his own familys dark history, a history which he knows little about. At times amusing and shocking, this is a fast-moving modern crime mystery with genealogical twists. The blend of well fleshed-out characters, complete with flaws and foibles, will keep you guessing until the end. Family Tree Magazine Flicking between the present and stories and extracts from the past, the pace never lets up in an excellent addition to this unique genre of literature.
