

## Dreams of Winter: A Sleeping Gods Tale

Under the rigid guidance of the Conclave; an order of holy men seeking to bring back the glory of the time of the gods, the Order of the Inquisition and their Prekhauten Guard divisions the seven hundred known worlds carve out a new empire with the compassion and wisdom the gods once offered. But a terrible secret, known only to the most powerful, threatens to undo three millennia of progress. The gods are not dead at all. They merely sleep. And they are being hunted. Senior Inquisitor Tolde Breed is sent to the planet Crimeat to investigate the escape of one of the most deadly beings in the universe. Amongeratix, one of the three sons of the god-king is loose once again, the fabled Three. Tolde arrives on a world where heresy breeds insurrection and war is only a matter of time. Tolde is aided by Sister Abigail of the Order of Blood Witches in his quest to find Amongeratix and return him to Conclave custody before he can begin his reign of terror. What he doesn't know is that the Three are already operating on Crimeat. Each serves a different emotion: Vengeance, Sorrow and Redemption. Their touch drives the various characters beyond themselves and towards an uncertain future that can only end one of two ways. Either the Three win and finally destroy the gods, or humanity stops them and continues to survive.
