

Wirewalker

Sometimes heroes can be found in the most unlikely places. Fourteen-year-old Clarence Feather knows no world beyond desolate Mayfair Heights. Three years ago, his mother was killed before his eyes by a stray bullet. When his father becomes unable to keep the family afloat, Clarence is manipulated into running drugs. But he longs to be a good person, in spite of the seemingly impossible odds. Wandering through his neighborhood, Clarence meets Mona, a huge albino Great Dane. The two develop a deep bond. When he is forced to attend a dog fight as a rite of passage, Clarence realizes that Mona isn't safe, and neither is he. Can he find a way to protect Mona? Can he survive life in Mayfair Heights and still become the person his mother wanted him to be? A novel about self-reliance, difficult choices, and imagination in the face of danger and isolation, *Wirewalker* is a masterfully written debut that blends gritty realism with moments of fantastical escape.
