

Windows of the Soulless

Neither purely good nor darkly evil, Nicolas Rider struggles to find a balance between the human he was and the vampire he is now. But somewhere in the midst of the constant sarcastic bickering with a rival vampire, protecting his best friend, and fighting off werewolves along with the more dangerous nomadic vampires, he manages to fall for the only vampire he is not meant to be with. Young and naive, she is off limits yet something draws him to her, compelling him to hold her as his lips yearn to touch hers. And despite knowing the dangers that getting too close to her would surely bring to the family, he finds himself ignoring the risks and savoring how good making the wrong choices can feel.
