

Dragons Kin (Dragonriders of Pern Series)

Beginning with the classic Dragonriders of Pern, Anne McCaffrey has created a complex, endlessly fascinating world uniting humans and great telepathic dragons. Millions of devoted readers and listeners have soared on the glittering wings of Annes imagination, following book by book the evolution of one of science fictions most beloved and honored series. Now, for the first time, Anne has invited another writer to join her in the skies of Pern, a writer with an intimate knowledge of Pern and its history: her son, Todd.Young Kindan has no expectations other than joining his father in the mines of Camp Natalon, a coal mining settlement struggling to turn a profit far from the great Holds where the presence of dragons and their riders means safety and civilization. Mining is fraught with danger. Fortunately, the camp has a watch-wher, a creature distantly related to dragons and uniquely suited to specialized work in the dark, cold mineshafts. Kindans father is the watch-whers handler, and his son sometimes helps him out. But even that important job promises no opportunity outside the mine.Then disaster strikes. In one terrible instant, Kindan loses his family and the camp loses its watch-wher. Fathers are replaced by sons in the mineexcept for Kindan, who is taken in by the camps new Harper. Grieving, Kindan finds a measure of solace in a burgeoning musical talentand in a new friendship with Nuella, a mysterious girl no one seems to know exists. It is Nuella who assists Kindan when he is selected to hatch and train a new watch-wher, a job that forces him to give up his dream of becoming a Harper; and it is Nuella who helps him give new meaning to his life.Meanwhile, sparked by the tragedy, long-simmering tensions are dividing the camp. Far below the surface, a group of resentful miners hides a deadly secret. As warring factions threaten to explode, Nuella and Kindan begin to

discover unknown talents in the misunderstood watch-wher-talents that could very well save an entire Hold. During their time teaching the watch-wher, the two learn some things themselves: that even a seemingly impossible dream is never completely out of reach and that light can be found even in the deepest darkness.
