

## The Trials of the Core (Guardian of the Core Book 1)

As Edwyrd Eska approaches his two-hundredth year as Guardian of the Core, he must find an apprentice to train under him. His title and role compel him to safeguard and govern his universe, Gladonus, as each Guardian before him has done and those after him shall continue to do until relieved of such duties by will of the Ancients. Prince Hydro Paen, Eirek Mourse, and Zain Berreseamongst other contestants receive invitations to compete in a quest of Trials intended to determine who will become Eskas apprentice. An old adage goes: The toughest trials test you truest and these events challenge their fortitude through tenuous partnerships, intellectual rivalries, and battles of weapons mastery. Along the way, each contestant must attempt to overcome personal demons that haunt them. In this tale of ideal dreams and lucid aspirations, these competitors find theirs threatened by deceit, betrayal, sabotage and even flesh as all become vital to success
