

Watch Me Draw Disneys Little Einsteins Amazing Missions

Colorful illustrations with educational missions that are engaging and interesting to kids All children love to draw, but they need guidance to foster their artistic ability. With Watch Me Draw Disneys Little Einsteins Amazing Missions, kids as young as four years old can start drawing their own masterpieces. And with Rocket transporting the Little Einsteins around the world on exciting missions, children will learn fun and interesting facts on every page. Any child who can draw a circle, a square, and a triangle will be able to re-create 11 drawing subjects introduced in the 11 scenes with ease. The 24-page book also includes a special flip-down paper pad (designed to be used while the book is open), which is preprinted with 11 unfinished drawings for the child to complete, helping the child become confident with his or her new skills. Plus, vibrant stickers complete each scene and provide a sense of accomplishment for the child once the drawing is finished.
