

Wheres Warhol?

If Andy Warhol could have traveled through time, where would he have gone? *Where's Warhol?* gives him his very own time machine, and finds out...Join Andy on a tour through time as he visits the art of the past. From Michelangelo at work on the Sistine Chapel, to Jean-Michel Basquait painting the streets of New York, via the French Impressionists and the Bauhaus, Andy has immersed himself in 12 iconic moments from Art History and the readers challenge is to find him in each. Whilst searching for Andy amongst the crowds, readers can also find a host of historical characters and features from each period. Spot glamorous 1970s celebrities surrounding Andy at Studio 54, for example, whilst key Modernists can be identified at work at the Bauhaus. Each scene has been recreated from careful archival research by art historian Catherine Ingram and painstakingly illustrated by Andrew Rae. Educational, fun and visually engaging, *Where's Warhol?* is the alternative, illustrated guide to the history of art for both adults and children.
