

## Talons Of The Dragon (Origins)

The Origins of Chaos and Life have been locked Battle Eternal since Light first appeared in the Dark. The Scales, last surviving warriors of Life, are dying. Their Light is fading, and the Fire of their Guardian Dragon cannot keep the Darkness from them. But, when the first rays of Light were lit, so were Shadows cast, and in the Shadows new strength and magic is to be had. Of neither Life nor Chaos and neither Light nor Dark, the Shadows are a place between and the Shadow Mages that walk there walk the edge. Will they fight for Life? Or Chaos? Or will these Mages of unknown Origin and alien magic, bring the Shadows over all? Glint is a Talon of the Dragon, the most Skilled of the Scales, but his Bound Hand has been lost to Darkness and he now fights alone. But within him, rises something unknown, unwanted, and unexpected to cast his shadow wide. Daivilyn lives in the ruins of a City long lost in the Sickening. She lives in Darkness and hides in Shadows. She wants nothing to do with the Scales and their Battle, but they need her if they are to survive. She can walk the edge between Light and Dark where the Shadows are. She can be the dawn. She can bring the Shadows into the Light, for she is Shadowborn. Paledark was born into and raised in Darkness, and he is trained death. He is ice forged in silence and stealth. Set upon his Masters enemies, he is tasked with murder. All Life within him is but a spark. He can bring the Shadows into the Dark, for he is Shadowborn.
