

The Heirs of Eldon (World of Samar Book 2)

Tav and Tash might have been born twins, but they both want something different from life. Tav would love to study with the great scholars in Voltarian, while Tash wants to follow in his fathers footsteps, becoming a hero. Neither is prepared for what fate has in store for them. With Loden once more facing war, an upstart king decides he has the answer. Unite the seven protectorates under one flag. Can he accomplish his dream? Can the sons of Kiameron keep him alive long enough to find out? Continue the adventure with the second installment in the World of Samar series.
