

Women Writers at Work: The Paris Review Interviews

Sixteen of the world's great women writers speak about their work, their colleagues, and their lives. For more than forty years, the acclaimed Paris Review interviews have been collected in the Writers at Work series. The Modern Library relaunches the series with the first of its specialized collections -- interviews with sixteen women novelists, poets, and playwrights, all offering rich commentary on the art of writing and on the opportunities and challenges a woman writer faces in contemporary society.
